# COOPERATION AGREEMENT

After the establishment of the normal diplomatic relationship between the People's Republic of China and the United States of America, numerous non-government organizations in the two countries have been keeping a good relationship.

An excellent example of such organizations is the China-Burma-India Hump Pilots Association, Inc., which has been maintaining a good relationship with China and has been conducting a variety of friendly activities.

The China-Burma-India Hump Pilots Association and the U.S. Army Volunteers Reserve Association are all organizations under the U.S. veterans organization system. In consideration of the foregoing facts, the China Culture Acceleration Association of Revolution of 1911' Descendant and the U.S. Army Volunteers Reserve Association now determine that they will become brother organizations with the purposes of better understanding and better cooperation between each other. Both will work hard hand-in-hand to achieve the common goal and each others' benefits.
